Summary

Full Stack Developer with 2+ years of experience building and deploying scalable web applications and backend systems. Proficient in React.js, Next.js, Node.js, TypeScript, and REST API development. Hands-on experience with microservices architecture, real-time systems using Socket.IO and Redis, and event-driven messaging with RabbitMQ. Developed AI-integrated SaaS applications using Gemini API. Strong understanding of PostgreSQL, MongoDB, Docker, and CI/CD workflows. BCA graduate, 2025. Open to full-time roles and freelance collaborations.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, GSAP, Framer Motion, ShadCN UI, Radix UI
Backend: Node.js, Express.js, Fastify, REST APIs, Microservices Architecture, JWT, OAuth 2.0
Real-time & Messaging: Socket.IO, Redis, Redis Pub/Sub, RabbitMQ, Event-Driven Architecture
Databases: PostgreSQL, MongoDB, Supabase, Neon DB, Appwrite, Drizzle ORM
DevOps & Tools: Docker, Git, GitHub, Vercel, Cloudinary

Experience

Full Stack Web Developer Trainee

January 2024 – December 2024

Hanumant Technology Pvt. Ltd.

Lucknow, Uttar Pradesh, India

- Developed and deployed 5+ full-stack web applications using React.js, Next.js, and Node.js with JWT-based authentication, protected routes, and RESTful APIs.
- Designed and optimized relational and NoSQL database schemas using PostgreSQL and MongoDB, improving query performance and data integrity.

Projects

E-Commerce Backend | Node.js, Express.js, PostgreSQL, Redis, RabbitMQ, Docker, JWT

2026

- Built a scalable e-commerce backend using microservices architecture with separate services for products, orders, users, and payments. Implemented Redis caching and RabbitMQ async message queues. Containerized with Docker.

Realtime Chat Infrastructure | Node.js, Socket.IO, Redis Pub/Sub, RabbitMQ, PostgreSQL, Docker

2026

- Designed a production-ready real-time chat system using Socket.IO and Redis Pub/Sub for multi-instance message broadcasting. Used RabbitMQ for guaranteed event delivery. Deployed with Docker.

TokyoTrails – Interactive Travel Platform | React 19, TypeScript, Vite, Framer Motion, Radix UI

2026

- Built an interactive Japan travel guide with smooth page transitions using Framer Motion, accessible components with Radix UI, and form validation using React Hook Form and Zod.

Healix AI – Health Report Analyzer | Next.js, TypeScript, Gemini AI, Supabase, Tailwind CSS

2025

- Developed an AI-powered SaaS platform for medical PDF analysis using Gemini AI. Features include structured health summaries, interactive AI chat, Google OAuth via Supabase, and secure file storage.

Capybara UI – Component Library | Next.js, TypeScript, ShadCN UI, Fumadocs, Tailwind CSS

2025

- Created a production-ready UI component library with searchable Fumadocs documentation and one-command ShadCN CLI installation for rapid project setup.

Courzo – AI Course Generator | Next.js, TypeScript, Gemini API, YouTube Data API, Neon DB

2024

- Built an AI-powered SaaS application that generates structured courses using Gemini API with automatic YouTube video suggestions per chapter and real-time dashboards.

Education

Bachelor of Computer Applications (BCA)

May 2025

Jawaharlal Nehru PG College, Barabanki

Uttar Pradesh, India

Certifications

Full Stack Web Development Professional Certificate – Hanumant Technology Pvt. Ltd., 2024
